# CONTRACT INFORMATION

**Quick overview of validated information for "Safu" badge.**

✅ No active mint function in the smart contract. Maximum token supply is set to 55,000,000.

✅ Smart contract does not have transactional taxation. Smart contract does not utilize max transaction limit, max wallet limit, blacklist, rebase, buyback, liquidity tax, etc.

✅ Smart contract owner can not claim native tokens from the contract. Smart contract owner can not stop, lock or pause trading.

✅ BeyondPay's initial liquidity is locked for 370 days after presale pool ends.

✅ All of BeyondPay's remaining tokens are locked in PinkLock for at least 30 days. First team token unlock will initiate on September 04, 2022. Token lock details are available at: https://www.pinksale.finance/pinklock/detail/0x516314b6061D484cEf8ACbCe802ae0e5a2000db3?chain=BSC

✅ BeyondPay's smart contract is tested thoroughly for logical and mathematical flaws. Smart contract is verified on blockchain, and is audited to ensure smart contract safety.
